

## **Newly Formed NexTec Recruiting Services Joins Forces with STS Recruiting**

***NexTec Recruiting Services Will Serve the Hiring Needs of Microsoft Dynamics, Sage, SAP and Other ERP Application Customers and Resellers***

**Seattle, WA -- November 17, 2008** – NexTec Group announced today that it has joined forces with STS Recruiting, to form a new business entity, [NexTec Recruiting Services](#). As an independent company, NexTec Recruiting Services will serve the staffing needs of ERP (accounting and business management software) resellers and customers, especially within the Microsoft Dynamics and Sage communities, but will also handle staffing for other ERP applications and IT positions. Ben Schrenzel, founder of STS Recruiting, has accepted the role of General Manager for Nextec Recruiting Services.

Eric Frank, President of NexTec Group, says, "We are excited to undertake this new venture with an established pro like Ben Schrenzel. We used Ben's recruiting services so frequently and with such high satisfaction levels at NexTec Group, that we had the idea to form a new company to offer his services out to the larger customer, VAR and ISV communities. Everyone is looking for good people, and that is exactly what NexTec Recruiting Services will offer."

Ben Schrenzel, General Manager of NexTec Recruiting Services, says, "NexTec Recruiting Services presents a great opportunity for us - and for the customers we serve. Now more than ever, pressure is high to hire the right employee. Our [model](#) of recruiting provides a much higher level of success, at a lower cost, and as part of NexTec Recruiting we can provide this on a broader scale, and to more clients."

NexTec Recruiting Services will offer permanent and contracting staffing services to Sage, Microsoft Dynamics and other ERP product end-users, as well as ISVs (Independent Software Vendors) and VARs (Value Added Resellers). NexTec Recruiting Services will focus primarily on technical, accounting and consulting roles.

### **About NexTec Recruiting Services**

NexTec Recruiting Services helps organizations staff their business with the permanent and temporary consultants, developers, IT and accounting professionals they need to implement, customize, maintain, use and support any of the major ERP applications. Our exclusive focus on the ERP / IT marketplace makes us a preferred recruiting service for companies looking to fill Microsoft Dynamics jobs, Sage jobs, CRM jobs, as well as other ERP and IT positions.
